Motivation

The motivation for my brief presentation today is to encourage a continued investment in Adaptive Sports as a means to assess and promote safe, purposeful and functional activity for our clients post Osseointegration.

Objective

1. To inspire formal thought and dialogue amongst all invested regarding continued participation in competitive Adaptive Sports for our client's post Osseointegration.
2. To encourage an increased the knowledge base for patients, staff and community based programs of the precautions associated with (OI) for continued safe participation with competitive level Adaptive Sports.
3. To set the seed for a collaborative SOP from all invested rehabilitation centers on how we can continue to provide appropriate programs, modifications and equipment based off current Osseointegration protocol and precautions.

Why Adaptive Sports

Why consider participation in Adaptive Sports for (OI) Clients:

- *It provides a positive impact on the client's mind, body and spirit.*
- *Allows for safe medically supervised exploration of clients maximum functional limits.*
- *Will promote innovation with Prosthetics and Adaptive equipment geared towards the (OI) population.*
- *To further encourage the clients spirit & resiliency while on their mission to a better quality of life.*

Closing Words

Adaptive Sports has afforded the opportunity for our clients to get back into the game of life. Let's continue promote these opportunities, who knows where life may take them?
